It's Too Hot.

The fellows who grumbled all winter about cold weather are now kicking equally as hard over the heat. Get off the earth, if you are not satisfied with it. There's no law compelling you to stay here.

Literary Note.

McCLURE'S MAGAZINE for June contains a short story by Mr. Kipling that derives a special interest from the fact that it seems to be reminiscent of Mr. Kipling's own youthful beginnings as a writer and editor. It will be very fully illustrated by the English artist L. Raven-Hill.

Judge Myers on the Bench.

Judge R. A. Burnside, who has been ill for some time, has gone to Dripping Springs to stay a couple of weeks hoping to improve in health. During his absence Squire Ike N. Myers will warm the woodcock on the Judge's bench. Judge Myers will certainly treat everyone fairly and if a fellow is guilty he will not slip through the fingers of justice while clever Ike is on the bench.

Time Drawing Night.

Only a short time until July 4th, the time set to give away the big cooking range at Joseph's. This range has attracted much attention. Come investigate. You may get it. See it in our window.

Base Ball.

The little boys' base ball team came down from Richmond Saturday and played a splendid game with the Lancaster nine, the latter winning by a score of 7 to 5. The Richmond boys were perfect gentlemen and showed by their conduct they had been trained up in the way they should go.

Good Record.

Passenger train No. 4 on the C. and O., which leaves Lexington at 11:30 A. M. arrived at Washington City every day last month exactly on time. If the train runs five minutes behind time it misses connection with the Congressional Limited between Washington and New York. Consequently, the importance of good time on the C. and O. is apparent. This record has never been beaten.

Parasols in all shades at Joseph's.

The cooking Range goes July 4th. See it at Joseph's.

Fancy and Stripe Gingham at Joseph's.

Much Good Done.

Fifteen new names were added to the rolls of the Lancaster Christian church during the recent revival. In addition to this, much interest was awakened among the members.

Lancaster's Crank Team.

A crowd of Lancaster boys went to Stanford the other day, each bearing in his bosom the belief that he could play ball. The Stanford boys kept tab until they were 150, more or less, ahead of the Lancaster aggregation, then quit counting. Our boys should practice once or twice before trying to play another team.

A Painful Lick Enterprise.

Adams' Fistula Salve, put up by Adams & Fish, Paint Lick, is meeting with ready sale every where. Persons who have used it say it's a marked success and a sure cure for Fistula, Piles, Swinney, Scatches, Enlargement, Greasy Heel, etc. It is sold on a written guarantee, and money refunded if not as represented. ap-13

Held, Held, Mansford.

The Somerset Paragon says Lancaster is claiming Miss Sadie Baughman, winner of the first prize in the girls contest during the recent school Tournament in that city. Beg pardon, Brer Mansford, we do not care to pilfer any of Richmond's honor, notwithstanding the fact the pretty little Miss Baughman was born in Lancaster and lived here until a few years ago. But we do claim that Lancaster's little ten-year-old entry, Miss Edna Mason, won the second prize over many others who were much older than she.

After 'Em All.

The Richmond Register says "The city Council at its recent meeting passed the following ordinance, which is a good: Be it ordained by the City Council of Richmond, Ky., that section 1, page 44 of city ordinances be amended so as to read: That any street walker, or able bodied man or woman who is caught loitering within the city limits and is unable to show any proper means of support, or that said person is engaged in the discharge of legitimate business, shall be arrested by the city officers and upon conviction shall be fined not less than five, nor more than fifty dollars."

Miss Arnold Improving.

Mr. Jno. M. Higginbotham returned Friday from Guthrie, Oklahoma, where he went to see his niece, Miss Arnold, who was shot by a burly brute of an officer. He says the girl was shot through and through near left shoulder blade. Notwithstanding the severe shock, she has stood the suffering remarkably well. She is rapidly gaining strength and Mr. H. tells us she will fully recover in a short time. The fellow who did the shooting is an illiterate man, and is hardly responsible. At the examining trial, he was held to the circuit court. The feeling against him is intense and he would certainly be roughly dealt with had not Mr. Arnold, and others relatives begged the crowd to wait and let the law take its course.

The Governor's Side.

Gov. Bradley, when asked about that summons to appear as a witness at Chattanooga and the fight made against the Mountain City Club by the ministers, said: "While I am not a drinking man I am of opinion that it would be eminently unfair to refuse, in Chattanooga, the right to imbibe after a certain hour to all ministers. Prominent officials and leading business men of the place invited the Governor and his staff, on the night of May 3, to witness the parade, attend the masked ball, and a few were invited to the club house. In recognition of the courtesy the invitations were accepted, not knowing that any law was being violated or for a minute supposing that leading citizens would invite a violation. While at the club house only two persons entered. One, with an oath, called for a cigar; the other, a mild-mannered man, took a whiskey straight, much to the disgust of our party, who had contented themselves with plain lemonade. We did not know at the time that either of these gentlemen was a minister."

Handsome Fans at Joseph's.

The usual crowd of loading boys have located in the Park, there to lounge 'til cold weather.

Can't Make It.

A big majority of the merchants want to close at 7 o'clock during these hot days, but a few will not catch step to the music.

The good people of Madison are never so happy as when entertaining their friends. Go to the Ladies Fair tomorrow and Saturday, and if you are not delighted with the trip, we will pay your expenses.

To Trustees.

It is very important that school trustees come in and qualify at once. The limit of time expires in a few days, and I am compelled by law to appoint others.

ELISA J. LUSK.

Notice.

Not having the time to collect them, I have left my accounts in the hands of E. Brown for collection. All those indebted will please call at his office, the Police Court room and settle at once and save cost. W. H. Lackey, by E. Brown, agent.

Democratic Speaking.

Hon. P. Wat Hardin will address the citizens of Garrard at the Court House next Saturday, the 10th, at two o'clock P. M. He will also speak at Paint Lick depot that night at 7:30. Everybody invited. Do not make your verdict until you have heard all the testimony.

They are a Nuisance.

A covey of little negroes lounge about the Public Square all day, keep up a racket and make themselves a general nuisance. If some poor devil should get drunk and make one-tenth as much noise as do these boys, he would be made to break enough rock to cover the Public Square.

County Convention.

A mass Convention of the Democratic voters of Garrard county is hereby called to be held at the Court House in Lancaster, on Saturday, June 17, 1899, at 2 o'clock, P. M., to select six delegates to the convention to be held at Louisville, June 21st to nominate Democratic candidates for State officers.

G. T. FARRIS, Ch'm.

Two Mighty Good Men.

We asked Judge Hughes if he would not submit to the many requests being made for him to run for the legislature, and he said he certainly would not be a candidate. There is a strong feeling for Capt. Ike Dunn to run, and his host of friends would certainly see him through safely if he were to conclude to shy his castor into the ring.

More Recruits Wanted the Philippines.

The Recruiting officer in Lexington has just received instruction from the War Department to enlist a number of white men for Infantry, Cavalry and Artillery services in the Philippines. These men will be sent to San Francisco at once to connect with Steam ship sailing the latter part of this month. Now is the chance for you to make a trip around the world. This opportunity will only last a few days and men wanting to join should apply at the Recruiting offices in Lexington, Ky. or in Ashland Ky. or in Somerset Ky. at once.

Important Masonic Meeting.

The meeting of the Masonic lodge next Monday night will be a very important one, and all brothers are urged to be present. Several petitions are to be voted on and other matters of equal importance to be attended to. The lodge room is the place to say yoursay, and if you do not come, don't comment upon what those present do. One member who attends regularly is worth a hundred who never come. By the way, at last meeting it was determined that hereafter none but affiliated Masons be permitted to enter. It has been allowed, as a courtesy, for many years, but is strictly against the law. Hereafter NONE BUT THOSE AFFILIATED CAN ENTER.

Electric Line to Lexington.

The project which Lexington capitalists have on foot to connect that city with all the surrounding towns by means of an electric trolley line is not meeting with universal approval by any means. The merchants of the various towns are opposed to it almost to a unit, for they claim that it will ruin their trade, diverting it all to Lexington. The opinion seems to prevail that with such a road in operation the towns so connected would soon die a commercial death. All the stores would be forced to quit, and business would be otherwise stagnated. From what the Journal can learn the promoters will encounter strong opposition, when it is definitely determined to begin construction.—Journal.

Closes Down.

The Pilgrimage Distillery has closed down for the summer. This house is the cleanest and best managed we ever saw, and we visited a great number while in the revenue service.

Communion Services.

The Sacrament of the Lord's supper will be celebrated at the Presbyterian church Sunday, the 18th. The usual preliminary services will be held on the Friday and Saturday nights previous.

Fair at Richmond.

The fair to be held at Richmond Friday and Saturday, of this week, promises to eclipse anything of the kind ever held in Kentucky. It is given under the auspices of the Boonesborough Chapter, Daughters of the American Revolution, and the good ladies are working with might and main to have every appointment complete. Mrs. S. G. H. Chenault is president, Minerva Park Phelps, secretary, Margaret Chenault, treasurer, and the following the vice-presidents: Mesdames Thos. Phelps, J. W. Caperton, Edward Shelby and Howard Neal. There are good premiums offered for stock and much attention given to needle work, art, and domestic manufactures. A good band will be in attendance and two more pleasant days could not be spent than at this fair. Garrard county people can leave here at 3 o'clock A. M., have the entire day in our beautiful sister city, and return at midnight.

Water Works.

The prospects are favorable for having plenty of water to guard against fire, reduce insurance, improve the sanitary condition of the city and make home more pleasant in many ways. The City Board of Council, at its regular meeting Monday night, agreed to advertise for bids for a franchise to establish water-works. It is estimated that forty plugs should be used by the town, at a cost of \$50 each, or \$2,000 per year. It is also claimed that 25 cents on each \$100 of taxable property, will raise that amount, and the rate of taxation will not then be beyond the limit. Many taxpayers have petitioned the board to take action in this direction, and the many advantages to be derived have caused the majority of the people to favor the move. If we get the Southern railroad and have water-works, our city will be the end of a division and permanent growth and prosperity is assured.

THE CITY COUNCIL.

Holds an Important Meeting Monday Night, and Transacts a Lot of Business.

Mayor Kinnaird called to order the regular June meeting of the City Council at 8 o'clock Monday evening. After a lot of minor matters had been disposed of, the committee appointed to look into the water works question reported that they could do nothing without first knowing what the system would cost. The question was discussed at length, and it was suggested to advertise in a leading paper in the east and get in correspondence with several firms. The committee can not, of course, make any report unless they know something as to the probable cost of the works, what terms can be secured, etc.

It was reported the work-house prisoners were not locked up at night, and a committee was sent down to investigate. They found them all safely behind the bars, save one whom Mr. Benge was working at his stable, which he had a perfect right to do.

Several parties asked to be released from building sidewalks, but the Council refused, saying it would not be right to compel some to build and excuse others.

Mr. Romans and Capt. Herndon said they knew of a firm that wanted to locate a factory here for the making of rubber tires, and wanted to know if we had water, the general location, etc. The attorney was ordered to confer with the secretary of the Commercial Club and answer the firm's inquiries.

By a vote of 5 to 1 it was decided to retain Joe Petty as night watchman.

THURSDAY, June - 8, - 1899

We had something to say recently about "Sunday Only" religion. There is also another form of mockery almost as bad, and it is the "Big Meeting" kind. Let a protracted meeting be held and the same ones who have "confessed" on every similar occasion for the past forty years will rush to the front to have patched the rents in his pants, caused from "backsliding." We know some fellows who have had such patching done until it looks like they had a wire bustle in their breeches. It is a solemn fact that whenever there is a revival in a neighborhood, money is apt to be sent to the conscience fund of the United States Treasury. It is a standing joke in the conscience fund department that whenever remittances begin to come from a certain community it is proof that a big revival is in progress. We wouldn't give one of the old-fashioned, quiet, unassuming, bible-reading Christians for all the mouse-track, protracted meeting frauds you could crowd between the four points of the compass.

A GREAT hurrah has been kicked up over the army canteen. If abolition of the canteen would stop drinking among the enlisted men, army officers would be unanimous in favor of stopping the sale of drink at Government posts. The practical difficulty is that the abolition of the canteen does not stop the sale of drinks. It drives the men to other places to drink. Drinking beer under proper supervision in canteens may be a serious evil, but drinking whisky from bottles and at disreputable saloons near posts is a bigger nuisance from a military standpoint. So far as the recent canteen law, it was unquestionably weak. It did not accomplish what it intended.

A WASHINGTON dispatch to a New York paper says that a relative of Admiral Dewey has assured the promoters of the subscription that the Admiral will accept the proposed gift of a home. If the hero does accept the money, it will lower him in many people's estimation. He is wealthy, to begin with, beside will have a handsome salary when he is retired from active duty.

THREE military companies are on duty in Clay county, this state, preserving order for a term of court. The best plan would be to let the members of the feud kill out each other, then the officers would have no trouble in preserving order.

SPAIN has ceded a big group of islands to Germany. The latter has been logging for Spain all along, and her hostile feeling toward Uncle Sam was manifested several times. Had it not been for Dewey's grit, we believe the German ships would have taken a shot or so at our men in Manila Bay.

HAS NATURE WARNED YOU?

Nature herself clads in the early part of spring, blossoms forth trees and flowers, and the most delightful of all, springing and how do you feel? Have you that sticky feeling, the forerunner of Chills, Malaria and Typhoid Fever? If so, you must not pass this "warning" as it is an indication of sickness. Avoid this consult us as our advice costs you nothing. Call on your druggist and procure a bottle of Dr. Carlsstedt's German Liver Powder. Take one dose a day at bed time for six days; then follow by procuring a bottle of Yucatan Chill Tonic, following the directions and after two weeks' course of these two great remedies, you will feel like the flowers look in the spring. Prepare yourself for the malarial or hot season when the atmosphere is full of germs. If necessary and when your system warns you, repeat the above. These Remedies in stock and sold by

have manifested greater interest in the welfare and the success of their pupils than did the teachers of Lancaster.

I must congratulate dear old Garrard county on her noble and intelligent son's and daughter's, Lancaster on having such an excellent principal at the head of the Graded School—also his splendid co-workers. Doubtless the Trustees deserve special thanks. THE CENTRAL RECORD should not be left out by any means. If the citizens of Lancaster don't appreciate their school and THE RECORD it is because they don't know what good things are when they have them. But we venture to say that those who are interested in Lancaster do appreciate them.

Dear old Lancaster! I rejoice with you in all of your successes, and pray that our Heavenly Father may continue to favor you with His richest blessings. My heart warms and beats with gratitude when I think of how nobly the citizens of Garrard stood by me during my efforts to build up the cause of Christ. I shall never forget you. Cordially and thankfully yours,
F. M. Hill.

Sweeney.

Sweeney Morgan bought of W. H. Brown a bunch of hogs.

Dr. Acton and wife, of Lancaster, and Master Carl, spent Sunday afternoon with relatives at Sweeney.... Mrs. Allen Traylor and little daughter and Miss Mary Ashlock, of Lincoln visited relatives in this vicinity Friday, and attended the school entertainment at Beazley's school house.... Mr. and Mrs. George Hiatt, of Mount Vernon, spent several days with relatives at Sweeney.... Your correspondent closed a very successful term of school at Beazley's school house Friday afternoon. The large crowd in attendance were delightfully entertained by the pupils with music and recitations.

Erasmus Allen, and Henry Shropshire returned from Lexington Sunday. They report seven horses stolen in the neighborhood of Camp Nelson, Saturday night. Mighty hot weather for people to steal.

Levy Clark, little daughter of Mr. and Mrs. A. B. Clark, fell down stairs Saturday evening and broke her collar bone. She suffered intensely. Dr. Amon dressed the injury and she is resting quietly.

Mrs. Rebecca Scott, of Jessamine, died Saturday. After funeral services by Rev. J. L. Williams, of Harrodsburg, she was buried in Mt. Hebron cemetery Sunday afternoon. We believe her spirit went where the spirits of all consecrated Christians go. She was a faithful wife, fond mother and kind neighbor. She spent most of her time since her husband's death, like her Saviour. She went about doing good, especially among children.

Mrs. John Onstott and Miss Sallie Barker visited Mrs. Margaret Stone, Monday, who remains quite ill.... John Murphy, of Clear Water, Kansas, is among his old friends here. He will remain until fall. Best of all, he is an honest man, which some one has said is the noblest work of God. When he left Kentucky several years ago, he was considerably in debt, he has been successful in the sun flower state, and is now settling some old debts. He, we think, is one in ten thousand who will do such a thing.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis Hoarseness and all disease of the Throat, Chest and Lungs are sure cured by it. Call on R. E. McRoberts Druggist, and get a free trial bottle. Regular size 50c and 75c. Some of our citizens are going to make an effort to have a church built here. Something that every one in the community ought to take an interest in.

A Praiseworthy Act.

The Lancaster company, which served in the recent war, did a handsome and noble act in placing tombstones over the graves of their dead comrades, Clarence Parks and Jefferson Cheatham, who died from fever during the company's stay at Chickamauga. A sum of money was raised here to buy the company a flag, but the boys concluded to take it, and their share of profits from the canteen and use it for the purpose above stated. The two made about \$130, which bought handsome monuments for the dead soldiers.

The Man who Always Finds Fault.

The man who is always finding fault with what everybody else does, without particularly trying to do anything himself, is neither a thing of beauty nor a joy forever. No, he is a positive nuisance, and he should do one of two things, either die or pick up his traps and leave his country, for his country's good. Don't continually wear a long face and preach failure of every enterprise undertaken by the people of your town and community. If you can't put your shoulder to the wheel and help on the car of progress, at least don't retard its onward movements by evil prophecies and expressions of unfounded fears. Don't mar the happiness of your family and friends and rob them of their sunshine by moroseness and discontent, but come out of the canyons of despair up to the hilltops of joy and gladness, and seek for what is good in humanity and give the evil the charity of your silence.—Ex.

His Platform.

A certain Lancaster man told THE RECORD he was seriously thinking of running for the legislature, and his only object in wanting to be a member was to have passed a bill compelling rail-roads to furnish separate coaches for drummers. "These fellows," quoth the would-be candidate, "are becoming a great nuisance to us common people who are compelled to ride with them. Each drummer takes two double seats, throws one over and puts his feet and grips thereon. If he had bought four tickets then we could not kick, when compelled to stand or sit on coal box. Several of them will get together and shapely kick up bedlam. They monopolize the conversation, complain of everything in sight, drink, smoke, cuss, tell smutty tales and in every way make the lives of their fellow travelers miserable. Once in a while you will be thrown with a civilized drummer, whom it is a pleasure to be with. Such fellows as Clay Hunt, Bob Adams, LaFever, Sam Joseph and a few others do not want the entire coach, and will readily give their seat to a lady. They are all right, and when I have my bill passed, it will be expressly stated therein that they are exempted from the Drummer's Roost' car."

The Angel, Death, with the cold and icy hand has again cast a gloom over this vicinity, and taken another link from life's chain. Mrs. Rebecca Scott had suffered for four months with cancer of the stomach, her sufferings were very intense, but with the loving arm of Jesus to lean upon, she bore them on until four o'clock Saturday afternoon, (June 3rd.) when God, in his wisdom and tender mercy, relieved her from her pain. She was 65 years old, and had lived a bright christian life from her youth. She leaves one son, three daughters and a number of grand children. Though life seems lonely and dreary here without her, we feel that she has reached that bright and eternal home where there will be no more suffering for her. Rev. J. I. Although there was a big crowd in town Monday, business was slack. At the stock pens, there were fully 1,000 cattle which ranged from 4c to 5c, one bunch, which sold by the head, bringing as high as 6 cents. Sales were slow, however. No mules were offered, and the few horses sold brought from \$60 to \$75. About 600 sheep were on the market, selling from 3c to 4c.—Register.

Ten weeks ago the farmers of this county thought the prospects of this year's tobacco crop was very poor on account of the late sowing of the beds. While the prospect to-day is more promising for a splendid crop than it has been in several years at this time. There has already been between 80 and 90 per cent of the crop in the county transplanted, and the plants are finer, in better condition, and living much better, and the fields are freer from cut worms than last year, besides being about ten days earlier than the same per cent was transplanted last year.—Winchester Sun.

The Government crop bulletin for Kentucky, just issued, says that wheat has done fairly well, but the prospect is not flattering for this crop. Complaint is made that it has headed too low, and in some localities the Hessian fly is doing some damage and in some places rust is injuring it to a limited extent. Oats are doing well.

The following Resolution was adopted at the meeting of the State Commercial Convention, in Louisville, Ky., May 29th and 30th: "Resolved, That the Commissioner of Agriculture be requested to name a day on which a convention shall be held at Lexington, Ky., composed of delegates selected by the county judges of each county, at which convention the subjects of constructing and maintaining roads shall be discussed and the work of road-making encouraged in every way possible."

In compliance with the above resolution the Commissioner has named Saturday, June 10th, as State Day at State College, Lexington, Ky., for the consideration of ways and means of improving the highways of the State. The work of constructing a sample road by the latest improved methods will be in progress under the supervision of the Road Expert of the National Department of Agriculture, and the object lesson in road construction and maintenance thus afforded will be of inestimable value. Each county is cordially invited to send delegates to this meeting. No arbitrary basis of representation is fixed, but it is desirable that, in addition to the officials named in resolution, Mayors of cities, Presidents of Commercial Clubs and Boards of Trade, Presidents Agriculture Societies and all other organizations interested in this great question should send the fullest delegations possible. Arrangements for half fare over all rail roads and special rates of entertainment will be made.

Just before the hour for closing the bank the assistant cashier of the German Insurance bank was rung up by telephone and asked if he could accommodate the Citizens national bank with \$5,000 in currency. On being answered in the affirmative the inquiring party said he would send two men around to get the money. Shortly afterward two young men appeared at the bank with a check for \$5,000, bearing the supposed signature of the cashier of the Citizens national bank. TRUTH UNADORNED.

A Plain Statement of Facts Regarding a Bangor Man's Luck at Hunting.

"It is true," said the man from Bangor, half sadly. "It is true that I brought five deer out of the woods, but they were all killed at one time, or very nearly so. I desire to be absolutely accurate in making this statement. I suppose that if two persons were to be killed by the same flash of lightning there would be some atom of time between the death of the first and that of the second. It was so in this case. I want to be exactly accurate and to have it so understood.

"My conscience acquits me of an intentional violation of the law. No Bangor man ever knowingly violates a law. For example, we do not believe in the prohibitory law but we respect it. It is a law, and as far as we can we execute it. We are a law-abiding people.

"Our party was made up of two ministers, a deacon, a colonel and myself. We brought back nine deer; the others killed one each, while I bagged, if I may use the term, the remaining five.

"It came about in this way. I was out hunting a short distance from the camp. I was anxious to get back early, because one of the ministers was to give a Bible reading, and I didn't want to miss it. A slight noise attracted my attention, and glancing up I saw a fine buck. Without the slightest hesitation, and I may add without a touch of what they call the deer fever, I fired.

"I used a repeating rifle, and, as I afterward found, the first bullet passed through the brain of the buck, and then killed a fine doe standing at that instant directly in range. In other words I secured as the result of my first shot two deer.

"As you know, an animal after receiving a fatal shot will give a convulsive leap. If nothing more, and despite the fact that it was shot directly through the brain the buck reared up, and, fearing that I was about to lose my game, I fired again. I may add that between my first and second shot no great time elapsed, a second or so, but nothing more. My pastor, when I told the story, said many a man had repeated, been soundly converted and forgiven in much less time than that. I presume it is so.

"But, short as was the time, the buck staggered and went down, passing as it were out of range of my second bullet, but that bullet did great execution. It passed through the brain of a doe, deflected, and struck the horns of a buck, and then buried itself in the heart of another doe. It was very remarkable; didn't it strike you so?"

"Very, but that makes only four deer, and you said you killed five."

"You will pardon my correcting you," continued the man from Bangor, "but I said that I brought five deer from the woods. I only killed four; the fifth deer may be said to have met with an accidental death. As I said, after killing the doe the bullet struck the horns of a buck. It was a glancing shot, and then it killed the second doe. The buck was unharmed, but of course the shock was considerable, enough to bring the animal to its knees. Then it sprang up and attempted to dart away, but instead went over a man's head and was killed. I got there just in time to save the meat."

"You had remarkable luck."

"I admit that I did have more than a common degree of good fortune," said the man from Bangor, "but, of course, I don't want to boast of it. In fact, one of the ministers said to me that evening: 'Many and many a man would have claimed that he killed all the five deer. It is to your credit that you have given us the plain, unvarnished facts.' I did not think I deserved praise for simply telling the truth, but, as he said, there are, doubtless, men, I fear even some Bangor men, who would have claimed that second buck."—Daily Eastern Argus.

HE GUARDS THE CZAR.

The Emperor's Outrider Serves as a Buffer for Nihilist Bombs.

The czar never travels by rail without the gendarme who is supposed to have the keenest scent for nihilist weapons of anyone in his empire, going ahead of the train on his peculiar railway bicycle. Traveling slowly, with eyes and ears alert for the presence of the enemies of his master and their terrible weapons, this outrider carries his own life in his hands and the life of him who is considered of much more importance, the ruler of the Russian empire.

Incidentally the outrider is on the lookout for defects in the railroad that might play havoc with the royal train, but this is not the primary object of his preceding the imperial party. He is an inconspicuous object on his curious wheel, and it is not likely that his swift progress along the road will be observed until he is too near a would-be assassin for the latter to accomplish his purpose.

A long experience with the nihilist gangs of Russia has taught the police of that country that the bomb is the favorite weapon with the killer of kings. Should one of these be left on the track in such a position that the wheels of the imperial train would explode it, it must surely be discovered by the outrider, or if he were unfortunate enough to overlook it, the czar's life at least would be saved, for the railway bicycle would cause the bomb to blow up, the rider's life alone being sacrificed. Hence the importance of the outrider.

He is continually in the proud position of offering his life for his master.—Albany Argus.

ONLY ONE CURE FOR SCROFULA.

S. S. S. is the Only Remedy Equal to this Obsolete Disease.

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. is equal to any blood trouble, and never fails to cure Scrofula, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrofula surely leads should impress upon those afflicted with it the vital importance of wasting no time upon treatment which can not possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrofula broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began their treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return."—Swift's Specific.

S. S. S. FOR THE BLOOD

—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured, instead of enduring years of suffering which gradually but surely undermines the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetters, Pimples, Sores, Ulcers, etc. Insist upon S. S. S., nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.
